

Emergency Warden Training (Onsite)

Overview

This course will provide participants with the knowledge, training and practical skills to effectively perform any Emergency Warden Role and responsibilities. This Emergency warden training course is suitable for companies and organisations which require selected members of staff to be trained as a warden, and will provide participants with the knowledge and skills to effectively manage workplace emergencies. This course is a must to meet the guidelines of Australian Standard AS3745-2010.

Course Content

- Identify, monitor and report situations that could lead to workplace emergencies.
- Identify report and correct situations that could prevent workplace emergencies from being safely handled.
- Respond to emergency reports, signals and warnings.
- Initiate and control initial emergency response.
- Prepare for emergency situations.
- Identify and assess the emergency.
- Safely confine emergencies where possible.
- Use initial response equipment (including portable extinguishers).
- Report workplace emergency response.

Course Inclusions

- Student Training Resource
- Fire Extinguisher Handout

Duration

Full Day - Approximately 8 hours

Delivery Method

Classroom theory via PowerPoint presentations, including audio-visual material and practical activities that simulate workplace incidents relating to fire.

Site Requirements

This course is principally designed for delivery at the clients' premises for maximum group size of 15 participants. To conduct theory presentation we require a boardroom/classroom with facility to darken room for computer projection. To conduct practical extinguisher use we require an outdoor area.

Participants Requirement

Participants are required to wear comfortable clothing and closed in shoes.

Certification

Upon successful completion of the course, each participant will receive a Certificate of Competency.
